

Dragon Canyon i7 - NUC12 Extreme NUC12DCMi7

Set Ablaze Your New Standard in Gaming

Overpower the competition in the greatest games and experiences with the all-new Dragon Canyon, powered by Intel's latest 12th Gen Core i7-12700 processor. Implementing an LGA1700 CPU socket makes Dragon Canyon the first ever Intel NUC to support a socketed Desktop CPU, giving you scorching performance in an 8L Chassis that can span processor generations. Supporting up to three Gen4 PCIe Drives and 64GB of 3200MHz RAM, along side a full-length GPU in its Gen5 x16 PCIe slot, Dragon Canyon is the new industry leader in small form factor gaming.

From Gaming to Content Creation, Dragon Canyon Takes Flight

Dragon Canyon is flush with new technology to help you create better and game better. From its dual Thunderbolt™ 4 ports, to its 10Gb ethernet port, Dragon Canyon delivers unprecedented data rates allowing you to stream,

game or browse at scorching speeds. Don't want to be plugged in? No problem, Dragon Canyon has Intel® Wi-Fi 6E & Bluetooth 5.2 built in to provide the flexibility you need. Flexible functionality of the x16 PCIe slot lets you choose your favorite graphics card or explore add-in cards to enable additional ethernet ports, or even a capture card for live streaming and content creation.

True Immersion in a Small Footprint

Pair your Dragon Canyon with a Nvidia GeForce RTX 30 series graphics card and your favorite VR headset to unlock a new world of gaming and entertainment. Dragon Canyon will allow you to play the latest in premium VR games and 360 experiences without sacrificing performance or quality. If you prefer to keep your VR setup on the move or out of sight, it has you covered. With its lightweight chassis and small 8L footprint, Dragon Canyon was built to be portable, giving you the compute power you need, where you need it.
